## The Liquor License Ordinance and the Liquor Act

### SOME COMPARISONS

The Liquor License Ordinance as at present on the Statute Book has been brought to its present position through years of practical working experience. It is one of the most useful Licensing Acts to be found in the whole Dominion and under it the people have full power to secure the carrying out of their wishes.

The proposed Liquor Act which the electors of the Province are being asked to vote for on July 21st next is a measure of vast importance; section 73 expressly repeals the Liquor License Ordinance and all amendments thereto. It therefore sweeps away the protection given to the people in the Liquor License Ordinance. The proposed Liquor Act gives no protection to anyone.

Under the Liquor License Ordinance there is set up an hotel system rules are prescribed for the carrying on of the same; the sale of liquor is carefully regulated and the duties of license holders are defined in the most careful manner. The important matter to be borne in mind is that the Liquor License Ordinance is enforced and observed by the license holders.

The proposed Liquor Act while it destroys the Liquor License Ordinance makes no attempt at anything in the shape of construction except to define the duties of vendors, doctors, dentists and others. It undertakes nothing in regard to the hotel system which the Liquor License Ordinance at present takes care of. Let the advocates of the Liquor Act state now what is their policy in regard to the hotels. It is a live question in Saskatchewan today. Why are the promoters of the Liquor Act in Alberta fighting shy of it?

The Liquor License Ordinance confines the sale of liquor to a by no means unreasonable large number of license holders in view of the population of the Province. In this matter it protects the interests of young persons, interdicts intoxicated persons and Indians. For proof that the Liquor License Ordinance is carefully administered, it has

been stated that last only five license holders in the Province were found guilty of breaches of the law.

The proposed Liquor Act would withdraw all the above protection.

It would make the practice of drinking inconvenient and costly by the fact that liquor for beverage purposes could not be legally obtained inside the Province. It would make the home the resort and directly incite towards the establishment of illicit drinking places without any kind of regulation for old or young, or interdicts (there could be none of the last under the proposed Liquor Act). The Liquor Act has many penal sections it is true but they lack the constructive element so conspicuous a part of the present Liquor License Ordinance.

The real test of the proposed Liquor Act. The difference between the two will be readily perceived and the public will realize that it has in its possession in the Liquor License Ordinance an excellent measure, the value and the complete usefulness of which will be perceived at once.

The promoters of the proposed Liquor Act are appealing largely to sentiment. They are issuing leaflets of a highly colored character with a number of not very easily substantiated statements. The opponents of the proposed Liquor Act are fortunate in having to present facts only and they fully realize that the voters of Alberta are intelligent enough to consider the merits of the case upon facts and not "hot air." The cost of administering and enforcing the proposed Liquor Act would impose a heavy financial burden, especially upon the farmers of Alberta.

On the one hand there is the actual present fact in the shape of the Liquor License Ordinance with all its advantages.

On the other is the proposed Liquor Act and all its drawbacks and disadvantages.

To defeat the Liquor Act on July 21st, should be the duty of the voters of Alberta.

THE weather has been lowering and cloudy for the most part. Showers fell on Sunday evening and Tuesday morning. Grain is showing on many farms several inches high. Rain is not urgently needed for two or three weeks yet.

AT the outset, let us state that the agitation to change the name of our town did not emanate from the News Office. Personally though, we never did like the name and hope that now that the change has been decided on, that some really suitable monicker will be found for this enterprising burg. We hope the ladies of this district in making suggestions, will not forget that the name chosen also becomes part and parcel of this paper's name. In other words, do not pull any unkindly cogmen on the town to get at the News or vice versa. Get some nice decent English or Canadian name of five or six letters. Do not go to France, or Belgium, or Servia, or Japan, or Germany, or Austria, or Turkey, or Greenland. Send in rational plain sounding, plain spelling names.

### MEN WHO KNOW

#### ENDORSE THE IDEA

What Four Prominent Canadian Premiers Say of "Made-in-Canada"

Sir George Foster, Minister of Trade and Commerce: "I have noticed with great interest the campaign being so capably conducted in favor of the 'Made-in-Canada' idea. I am viewing the matter, of course, entirely from the point of view of unemployment, and cannot rid myself of the conviction that one of the best remedies possible is that we who buy in Canada—and all of us buy more or less—shall make it a point wherever possible, to purchase for our needs what has been made by Canadian hands and of Canadian material. In this way we would considerably assist in the quick reduction of unemployment and the quick reviving of production and trade."

Hon. Walter Scott, Premier of Saskatchewan: "If all Canadian citizens to consciously prefer the manufactures of their own country, as they do unconsciously prefer their natural products, there would be a splendid two-fold result—the sum of our national property would be increased, and, more important still, the sum of our pride and confidence in Canada would be increased also."

Hon. G. H. Murray, Premier of Nova Scotia: "The 'Made-in-Canada' campaign has my heartiest sympathy. I am sure it will meet with a generous response from all Canadians. The movement aims at the development not only of a practical patriotism but also of a fine spirit of mutual helpfulness among our people."

Sir Richard Withers, Premier of British Columbia: "I am very glad to say anything that I can in support of the most commendable idea contained in your programme. One of the effects of this war has been to arouse the people of Canada to the necessity of a greater production in various lines of industry, and I know of nothing which will tend to promote this more than the campaign you are now engaged in."

### STORY OF A STORE

Tom Thaker had a corner store. He got it from his father who built up his trade from the farmers that spent their money for things made in Canada. Taskerville grew into a little town of cement sidewalks and electric lights. Tom's business developed and he got an automobile, a \$10,000 house, and a big new store with plate glass, patent show-cases and a stenographer.

The blacksmith shop grew into a carriage factory; the local cabinet-maker became a furniture manufacturer.

A few years ago when a wide-awake man discovered that the country around Taskerville had the very best kind of soil and climate for raising tomatoes, cucumbers, bell-peppers and small fruits, and reckoned it a good stroke of business to start a canning factory in Taskerville, the farmers fetched their truck to the factory which became as good a purveyor of canned goods as any in Canada. Its products were found in the mining camps and the kitchens of the wealthy that went to grand opera. But whenever any farmer went to the store of Tom Thaker, built up from their farms in two generations, they never could find a blessed tin of the Taskerville factory's goods on his shelves. When they asked him why he wouldn't encourage home industry and stock up with home goods, he said he reckoned he knew his own business.

Wherefore the farm folk round about Taskerville boycotted the Thaker store, and Tom Thaker made an assignment. Which, to most sensible folks' way of thinking was the only way to prove to the Taskerville intellect that you can't expect both boots to fit the same foot.

This is a homely illustration and localized to Taskerville; but if it doesn't prove that it's the business of the retailer in Canada to keep on his heels the goods made in Canada by Canadian workmen at a time when Canada is making the fight of her life to stay industrially efficient—then there must be something wrong with the argument. Think it over.

## Buy an Irrigated Farm

FROM THE CANADIAN PACIFIC RAILWAY  
BECAUSE

Irrigation makes the farmer independent of rainfall and insures good crops; not occasionally, but every year.

Irrigation makes possible the successful culture of alfalfa, the king of feeders, which insures best returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the year 1914 having absolutely demonstrated its success wherever intelligently applied.

You can buy irrigated land from the Canadian Pacific Railway at prices ranging from \$35 to \$75 per acre, with twenty years' pay and the privilege of a loan of \$2,000.00 for improvements (6% interest); no principal payment at the end of first and second years and no water rental for first year. Assistance is also given in supplying stock in approved instances.

This is the most liberal offer of irrigated farm land on record.

## WHERE PEOPLE CAN GIVE AID

Make an "Made-in-Canada" Goods  
Retailer and Wholesaler Will  
Soon Fall in Line

Two-often in the past the whole-  
saler and retailer of Canada have  
openly opposed the "Made-in-Canada"  
movement. Where they have not op-  
posed it they have damned it with  
sneer words. Their motives in so  
doing are purely selfish. Very often  
to secure a share of Canada's trade  
the foreign manufacturer quotes par-  
ticularly attractive prices to the  
dealer, prices which enable both  
wholesaler and retailer to extract a  
greater profit than usual from the sale  
of these goods. The foreign manu-  
facturer is able to do this because the  
Canadian market is only a small part  
of his total market, and he can easily  
sell at a low profit or even at cost.  
In other words "dump" in this  
small market in order to secure con-  
trol of the trade, whereas the Cana-  
dian manufacturer, for whom Canada  
is the whole market, cannot afford  
to do business at a loss to meet the  
foreigner's price. This explains in  
great measure why wholesaler and  
retailer have not got behind the  
"Made-in-Canada" movement until  
very recently.

The Toronto "Globe," in an article  
on the "Made-in-Canada" question the  
other day, explains the reason for the  
"Made-in-Canada" campaign going  
direct to the people on this ground.  
Under the heading, "Home Production  
or Backruptcy," the "Globe" says:  
"The people in the end can force  
the storekeeper or the dealer to give  
them the Canadian-made article. But  
he could not, especially in the light  
of present conditions, why he should  
encourage home production without  
being forced to do so. To see the war  
broke out our exports as well as our  
imports have decreased with serious  
rapidity, and the only alternatives  
that confront Canada, in the face of  
such critical trade conditions, are in-  
creased production at home and a  
larger volume of business in the home  
markets, or bankruptcy. If Canadian-  
made goods are not sold in greater  
volume the merchant and the whole-  
sale dealer must inevitably suffer,  
simply because a very large number  
of their present customers, people who  
work in factories and in offices de-  
pendent on factories, will be forced  
out of employment. Furthermore,  
regarded from a national point of  
view, the "Made-in-Canada" move-  
ment, which means increased pro-  
duction in all departments at home,  
is the only method of raising the one  
hundred and fifty millions of interest  
which is due each year on the coun-  
try's indebtedness."

Point to Retailer to Bear in Mind  
in His Purchases

A man out of a job, or only par-  
tially employed, is a poor customer.  
You must prefer, don't you, to deal  
with customers whom you know are  
earning good wages, in thriving local  
industries? Their credit is good—they  
pay their bills.

Did it ever occur to you that, out  
of every dollar's worth of Canadian-  
made goods you buy, from 25 to 50  
cents goes to the Canadian workman  
living in Toronto or in some other  
Canadian city, and enables him to  
buy from 25 to 50 cents' worth more  
goods from his tradesman?

Did it ever occur to you that, out  
of every dollar's worth of foreign-  
made goods you sell, about 75 cents  
or more disappears from Canada for-  
ever, and the buying capacity of the  
Canadian workmen is correspondingly  
reduced? The wages that should be  
in his pocket have been paid to the  
foreign workman.

In 1913, over \$692,000,000 of Cana-  
dian money was spent for foreign  
goods. Think of it—six hundred and  
ninety-two million! Half of these  
goods could have been made in Cana-  
da, and Canadian workmen and Cana-  
dian retailers would have been  
\$346,000,000 to \$346,000,000 better off  
than they are today.

## Jenner

N. E. Stuart, of Carlstadt, motored to Jenner Saturday to visit J. R. Hallam on business.

Mrs. O'Keefe, of Chicago, is visiting her parents, Mr. and Mrs. D. F. Ferroll here.

H. O. Klineck and J. F. Weh-  
dale left by train to Bassano last  
Wednesday. Mr. Klineck going to  
Calgary and Jimmy to Medicine  
Hat. They returned by the stage  
Friday.

T. L. Owens, rancher of Howie,  
was in town last Wednesday.

J. R. Hallam, manager Vee Bar  
Vee ranch, was in town last Tues-  
day.

The Jenner mounted brigade, led  
by Colonel Dan, rode over the west  
country last Sunday.

Dave Christie has got a fine field  
of young wheat and we notice sev-  
eral others also.

Bill Christie says rock digging is a  
good exercise if one wants to join  
the army it prepares you for trench  
digging.

A. C. Hughes rode to Carlstadt  
Thursday on business, returning  
Friday.

Clean-up day in Jenner May 8th.

J. G. Stine, who has 1500 acres  
of wheat in, on the Denhart ranch,  
left by train Wednesday for Em-  
press.

Homesteader Inspector Switzer  
was in town Friday and Saturday,  
having motored up from Medicine  
Hat.

Mark V. Wilson motored over to  
Poville last Saturday in his Mit-  
chell car from the Colville ranch.

Still further progress is noticed  
on the heads of the boys who had  
their hair cropped short a little  
while ago. Who said mosquitoes!

J. B. Johnston was in town  
Tuesday.

The Victrola at the bank has dis-  
coursed sweet music to the residents  
these last few weeks. Lessons in  
all the latest dances given.

Jenner will soon boast a drug  
store. Mr. Stiles, of Bassano, will  
open up, as soon as Harvey Sum-  
mers has put the finishing touches  
on his store.

Sir Thomas Shaughnessy, presi-  
dent C.P.R. was in Jenner Sunday  
and spoke very favorably of the  
surrounding country. No doubt  
Sir Thomas will complete arrange-  
ments whereby Jenner will have a  
daily train service and a depot  
large enough for the requirements of  
this booming young city.

Mrs. Shafer is ill and the sym-  
ptoms show typhoid.

Now that the weather is getting  
warmer it should be imperative  
that every care be taken in keeping  
all lots clean, to prevent that old  
plague carrier, the fly breed in  
too large quantities.

## How and Why It Rains.

Rain is an accumulation of the  
tiny particles of the vapor of the at-  
mosphere into drops. These drops,  
yet small of size, attract other drops  
of their kind and become drops of  
such magnitude that they fall to the earth  
because of their weight. There is a  
limit to the quantity of water which  
the air is capable of absorbing and  
retaining as invisible vapor. Warm  
air is able to hold more than cold  
air; hence when the air which is sat-  
urated with moisture becomes cold for  
any reason whatever it can no longer  
retain its moisture. A portion must  
under such conditions become liquid  
drops. These fall to the earth in the  
shape of rain.

## Wants a Rainy Wedding Day.

The Swedish girl prays for a rainy  
day on which to get married. Then  
before she goes to the ceremony at-  
tired in her wedding clothes she milks  
the cow, feeds the calf and stails a  
great butter from her husband good luck.  
The Swedish bride wears loose shoes,  
unbuttoned and untied, at her wedding.  
In use is a silver coin, in the other a  
gold one. This is to bring her the  
necessaries and luxuries of life.

## Paternal Confidence.

The Young Man (with some em-  
barassment)—There is one ques-  
tion haven't asked me yet, Mr. Hur-  
pop. You haven't wanted to know  
whether or not I think I can make a  
living for my daughter.

The Older Man—That isn't nec-  
essary, Henry. She'll see that you  
make the living, all right, if she's  
at all like her mother, and thank
